

## Assistant Professor in Applied Statistics

The Penn Graduate School of Education invites applications for a tenure-track position (assistant professor rank) in applied statistics with experience or training in educational research or in education-related social science research. The successful candidate will have an earned doctorate with a clear specialization in applied statistics and have outstanding promise of research productivity and teaching excellence in quantitative research methods. We expect the successful candidate to provide intellectual leadership through teaching, advising, and research to the Quantitative Methods Division, and across divisional programs within the Penn Graduate School of Education.

The University of Pennsylvania is an equal opportunity affirmative action employer. Women and minority candidates are strongly encouraged to apply.

We will begin reviewing nominations and applications on **October 15, 2012**, but we will continue to consider new applications until the position is filled. Please apply online at [https://www.gse.upenn.edu/faculty\\_research/positions/apply-AS](https://www.gse.upenn.edu/faculty_research/positions/apply-AS), submitting a letter expressing your interest and general qualifications, curriculum vitae, and reprints of publications and relevant manuscripts. Please address all correspondence to Chair, Search Committee, Applied Statistics.

In order to be considered, letters from three references should be forwarded to:

**Chair, Applied Statistics Search Committee**
